SUBJECT INDEX TO VOLUME 116

Abortion
decidua (Gruenwald), 363
Absorption
intestinal (Bryant & Stafford), 341
vitamin B_{12} (Bryant & Stafford), 341
Achondroplasia
in the Amish (McKusick et al.), 285
Address
senior class convocation, The Johns Hopkins University School of Medicine (Tumulty), 145
Alpha macroglobulins
the effect of human serum on growth hormone labeled with radioactive iodine (Hadden & Prout), 122
Alpha proteins
the relationship of insulin I-131 to (Merimee et al.), 191
Anal sphincters
simultaneous manometric recording of internal and external reflexes (Schuster et al.), 79
Arteriolosclerosis
hyaline (Spear & Kihara), 161
Autosomes
familial variant (Migeon), 396

Bacteremia and vaccination
synovitis in rabbits (Lewis & Cluff), 175
Binding to serum protein
the effect of human serum on growth hormone labeled with radioactive iodine (Hadden & Prout), 122
Bloor scales
conversion of serum cholesterol levels (Thomas & Murphy), 348
Blood
administration in rabbits (Snyder et al.), 95
effect on homograft survival (Snyder et al.), 95
histamine changes in (Caldwell & Sheldon), 1
5-hydroxytryptamine (Caldwell & Sheldon), 1
Blood groups and disease
lack of influence of ABO blood group on natural or immunological responsiveness (Finkelstein et al.), 152
Book Reviews, 73, 136, 204, 276, 356, 434

B_{12}
absorption of (Bryant & Stafford), 341
cobalt labelled (Bryant & Stafford), 341

Cancer chemotherapy, experimental
rat mammary cancer screening studies (Owens & Busch), 249
Castration
and skeletal growth (Cheek et al.), 387
Cell membrane
reciprocating form in cells in tissue culture (Rose), 33
Cells
in tissue culture (Rose), 33
time-lapse cinemicrography of (Rose), 33
tissue mast in rats (Caldwell & Sheldon), 1
Cholera
serological responses in man to a single small dose of cholera vaccine (Finkelstein et al.), 152
Cholesterol
conversion of serum levels from the Bloor to the Zak scales (Thomas & Murphy), 348
Chromosomes
familial variant autosomes (Migeon), 396
Co^{57}
labelled B_{12} (Bryant & Stafford), 341
Collagen
skeletal collagen growth (Cheek et al.), 378
skeletal water growth (Cheek et al.), 378
Colon
absorption of vitamin B_{12} (Bryant & Stafford), 341
Colon
manometric recording of internal and external anal sphincteric reflexes (Schuster et al.), 79
motility studies (Schuster et al.), 79
Compound 48/80
changes in blood and skin levels of histamine and 5-hydroxytryptamine in rats after administration of (Caldwell & Sheldon), 1
The contourogram (Webb), 211
Crystals and particles in tissue cultures (Rose), 33
Cyclophosphamide
effect on skin graft survival in rats (Santos & Owens), 327
Cytogenetic markers
human (Migeon), 396

Decidua
sloughing in abortion, premature birth and abruptio placentae (Gruenwald), 363
Dorsal root
sprouting (Nathanson), 243
Dorsal root sprouting
failure to demonstrate using the protargol silver stain (Nathanson), 243
Drug Letters, 69, 132, 271, 430
Dwarfism in the Amish
achondroplasia (McKusick et al.), 285
cartilage-hair hypoplasia (McKusick et al.), 285
hair hypoplasia in the Amish (McKusick et al.), 285
metaphyseal dysostosis (McKusick et al.), 285

Ebstein malformation
tricuspid valve associated with ventricular septal defect (Mehrizi et al.), 89
Electrocardiographic display (Webb), 211
Electron microscopic study
jejunal lesions in patients with giardiasis and malabsorption (Takano & Yardley), 413
Electrophysiology
of sweat gland (Shaver et al.), 100
Endocrine
castration and skeletal growth (Cheek et al.), 387
deficiency (Cheek et al.), 387
growth hormone and connective tissue (Cheek et al.), 387
hypopituitary and skeletal collagen (Cheek et al.), 387
hypothyroid and skeletal collagen (Cheek et al.), 387
Exudative
lesions in glomeruli of children (Spear & Kihara), 161

Familial
chromosomal variant (Migeon), 396
Fat inclusions
cells in tissue culture (Rose), 33

Gastric juice
intrinsic factor (Bryant & Stafford), 341
Giardiasis and malabsorption
jejunal lesions in patients with (Takano & Yardley), 413
Glomeruli
of children, "exudative" lesions in (Spear & Kihara), 161
Golgi complex
secretory phenomena by cells in tissue culture (Rose), 33

Hair hypoplasia
in the Amish (McKusick et al.), 285
Helical particles in tissue cultures (Rose), 33
Hemisection
spinal cord (Nathanson), 243
Hemispherectomy
in the cat (Nathanson), 243
Hemoglobin
a new abnormal (Rieder & Naughton), 17
four in one individual (Rieder & Naughton), 17
$G_{(Baltimore)}$ (Rieder & Naughton), 17
Hemoglobin $({}_{\alpha}TpIX^{asp\rightarrow His})_2^{\beta_2}$, 17
human (Rieder & Naughton), 17
Homograft
immune response in homografting (Snyder et al.), 95
survival in rabbit after administration of whole blood (Snyder et al.), 95
Human growth hormone
studies on (Hadden & Prout), 110, 122
Hypersensitivity
skin homograft survival in rabbit after administration of whole blood (Snyder et al.), 95
Hypopituitary
and skeletal collagen (Cheek et al.), 387
Hypothyroid
and skeletal collagen (Cheek et al.), 387

Ileum
absorption of vitamin B_{12} (Bryant & Stafford), 341
Immunoelectrophoresis
studies on human growth hormone (Hadden & Prout), 110, 122
Infectious disease relation to blood groups
serological responses in man to a single small dose of cholera vaccine with special reference to the lack of influence of ABO blood group on natural antibody or immunological responsiveness (Finkelstein et al.), 152
Insulin binding
the relationship to serum protein fractions (Merimee et al.), 191

Insulin transport
the relationship to serum protein fractions (Merimee et al.), 191
Intestine
absorption from vitamin B_{12} (Bryant & Stafford), 341
isolated circular loop (Bryant & Stafford), 341
Intrinsic factor
gastric (Bryant & Stafford), 341
Iodine I^{131}
labeling of (Hadden & Prout), 110, 122
Ion transport (Shaver et al.), 100

Jejunum
lesions of (Takano & Yardley), 413

Kidney
"exudative" lesions in glomeruli of children (Spear & Kihara), 161

Lesions
epithelial and other mucosal (Takano & Yardley), 413
Lipase
destruction by pepsin (Heizer et al.), 261

Malabsorption and giardiasis
jejunal lesions in patients with (Takano & Yardley), 413
Mammary cancer of rats
effects of various cytotoxic chemicals (Owens & Busch), 249
induced by 3-methylcholanthrene (Owens & Busch), 249
Mechlorethamine (nitrogen mustard), effect of skin graft survival in rats (Santos & Owens), 327
Membrane potential (Shaver et al.), 100
6-mercaptopurine
effect on skin graft survival in rats (Santos & Owens), 327
Metaphyseal dysostosis
in the Amish (McKusick et al.), 285
Methotrexate
effect on skin graft survival in rats (Santos & Owens), 327
3-methylcholanthrene-induced rat mammary cancer (Owens & Busch), 249
Microelectrodes (Shaver et al.), 100
Mitosis, bizarre (Rose), 33
Motility studies
of internal and external sphincteric reflexes (Schuster et al.), 79

Muscle
adolescents' growth spurt (Cheek et al.), 378
collagen (Cheek et al.), 378
growth and castration (Cheek et al.), 387
hypopituitary (Cheek et al.), 387
hypothyroid (Cheek et al.), 387
mass (Cheek et al.), 378
normal growth (Cheek et al.), 378
skeletal collagen growth (Cheek et al.), 378
skeletal water growth (Cheek et al.), 378
stretch, reflex responses in cats (Teasdall et al.), 229

Nerve
conduction velocity in tropical neuropathy (Chuke et al.), 403
Neuropathy, tropical
ulnar nerve conduction velocity in nutritional (Chuke et al.), 403
Normal growth
muscle mass and skeletal collagen in the rat (Cheek et al.), 378

Pancreas
gastric inactivation of pancreatic supplements (Heizer et al.), 261
pancreatic insufficiency (Heizer et al.), 261
pancreatin, destruction in stomach (Heizer et al.), 261
Pepsin
gastric inactivation of pancreatic supplements (Heizer et al.), 261
Pinocytosis, cells in (Rose), 33
Placenta, abruptio
premature separation (Gruenwald), 363
Premature birth
abruptio placentae (Gruenwald), 363

Rats
changes in blood and skin levels after administration of compound 48/80 (Caldwell & Sheldon), 1
Reflex
myotatic (Teasdall et al.), 229

Secretion, glandular
electrophysiology of (Shaver et al.), 100
Serum protein
the relationship of insulin I-131 (Merimee et al.), 191
Skeletal
collagen growth (Cheek et al.), 378
water growth (Cheek et al.), 378

Skin
histamine changes in (Caldwell & Sheldon), 1
5-hydroxytryptamine (Caldwell & Sheldon), 1
Skin graft survival
effect of cytotoxic drugs on rats (Santos & Owens), 327
in rabbits after administration of whole blood (Snyder et al.), 95
Sprouting
dorsal root (Nathanson), 243
Sweat glands
electrophysiology of (Shaver et al.), 100
Synovitis
in rabbits (Lewis & Cluff), 175

Time-lapse cinemicrography of cells (Rose), 33
Tissue cultures
cell membrane, reciprocating form in cells (Rose), 33
crystals and particles in (Rose), 33
fat inclusions, cells in (Rose), 33
Golgi complex, secretory phenomena by (Rose), 33
Helical particles (Rose), 33
intranuclear inclusions (Rose), 33
mitosis, bizarre (Rose), 33
mosaic patterns of cells in (Rose), 33
nuclear membrane folds (Rose), 33
nuclear rotation, cells in (Rose), 33
nucleolus, fusions, fissions and secretory activity, cells in (Rose), 33
pinocytosis, cells in (Rose), 33
time-lapse cinemicrography of cells in (Rose), 33
zeiosis, cells in (Rose), 33
Tissue mast cells
in rats (Caldwell & Sheldon), 1
Thyroid
effect of ablation on growth of muscle mass (Cheek et al.), 378
Transplantation
effect of blood transfusion (Snyder et al.), 95
immunity in (Snyder et al.), 95
Trypsin
destruction by pepsin (Heizer et al.), 261

Vaccine response
serological responses in man to single small dose of cholera vaccine (Finkelstein et al.), 152
Vaccination
synovitis in rabbits during bacteremia (Lewis & Cluff), 175
Ventricular septal defect
associated with Ebstein malformation (Mehrizi et al.), 89
Vitamins
absorption of B_{12} (Bryant & Stafford), 341

Zak scales
serum conversion of cholesterol levels (Thomas & Murphy), 348
